- a. **Mercy Rule:** The game shall end when; the visiting team is behind 10 or more runs after 4.5 innings; or after the 5th inning if either team is 10 runs behind and have had an equal number of times at bat. In addition, during the regular season, if a team goes up by 15 or more runs after one full inning, the team with the lead will be declared the winner. At that point, the remainder of the game will go into “rollover” mode until after 4.5 innings when the game is terminated. In the rollover mode, both teams will pitch to no more than 9 batters per inning. The official score will be the score at the point in time the “rollover” mode went into effect. Statistics during the rollover mode will count.
- b. **Called Game:** When a non-league or league game is called by an umpire before the completion of the required number of innings, the game is declared a “no game”. The game can be replayed and the pitching rule shall apply.
- c. **Suspended Game:** A game called for any reason by an umpire after the required number of innings, where a winner cannot be determined (i.e. home team is behind and has not batted, or score is tied) will be treated as a suspended game. The game shall be continued from the point of suspension at a later time. The lineup and batting order of each team will remain exactly the same at moment of suspension. If a winner can be determined (both teams have equal at bats or home team is ahead) the team that is ahead will be considered the winner. If the game ends in a tie and the suspended game cannot be completed because of scheduling conflicts, the game is considered a tie game. At the state championships onsite ASAA staff and the Tournament Director shall determine when a suspended game will be completed.
- d. **Speed Up:** The courtesy runner speed-up rules may be adopted by leagues or districts for use during the regular season. In interleague and/or interdistrict competition, both teams must agree to allow the speed up rule before it may be used. Courtesy runner speed-up rules will be used in the state championship tournament. The following is a speed-up rule summary:
 - The team at bat may use courtesy runners for the pitcher and catcher as soon as they get on base. The same runner may not be used for both positions. Neither the pitcher nor catcher will be required to leave the game under such circumstances.
 - Players who have participated in the game in any other capacity are ineligible as courtesy runners.
 - A player may not run as a courtesy runner for the pitcher or catcher and then as a runner or batter for another player in that inning.
 - For illegal substitution of a courtesy runner, such substitution shall be disqualified for the duration of the game.

The below process is being revised by the ASAA Board of Directors.

Schools have the choice of either scheduling their own games or participating in the following cooperative scheduling process. If choosing to participate in the cooperative scheduling process, schools will be considered to have broken a contract for each game not played. The following is the cooperative scheduling process.

- 1. School must indicate to ASAA in writing their intent to participate in the cooperative scheduling process by December 1 of the current school year in order to be scheduled for the following two (2) years.*
- 2. Schedules will be the same for two years except for the sites will rotate. For example: Team A plays Team B at Team A's home. The following year Team A will again play Team B, but at Team B's home. (This rule may be modified, by the committee, for schools playing in areas where extreme weather or other factors may make it non-feasible.)*
- 3. Schools off the "road system" must announce the minimal financial assistance they will provide teams traveling to play.*
- 4. Schools scheduled to play non-road system teams, must play those games if financial assistance is met.*
- 5. ASAA will come up with a master schedule for those teams participating in the collective scheduling process. This schedule will be reviewed and may be changed by a committee made up of a representative from each football conference. The Region that has the most schools in the conference will choose the representative.*
- 6. Once the Committee has approved the schedule, it will be considered final.*

K. RECOMMENDATIONS AND GUIDELINES FOR MINIMIZING HEAD IMPACT EXPOSURE AND CONCUSSION RISK IN FOOTBALL

The Alaska School Activities Association, along with its Sports Medicine Advisory Committee (SMAC) has reviewed the recommendations of the National Federation of State High School Associations (NFHS) regarding policies to minimizing head impact exposure and concussion risk in football. ASAA strongly recommends to its member schools and districts to adopt the following as policy.

1. Full-contact should be limited during the regular season, as well as during activity outside of the traditional fall football season. For purposes of these recommendations and guidelines, full-contact consists of both “Thud” and “Live Action” using the USA Football definitions of Levels of Contact.

Rationale: By definition, “Thud” involves initiation of contact at full speed with no pre-determined winner, but no take-down to the ground. Accordingly, the task force supports that initial contact, particularly with lineman, is just as violent with “Thud” as with “Live Action.” However, the task force also recognizes that “Live Action” likely carries a higher risk for other injuries to the body than does “Thud.” The USA Football Levels of Contact “Air,” “Bags,” and “Control” are considered no- or light-contact, and thus no limitations are placed on their use.

2. Schools in Alaska should limit contact in practices. ASAA strongly recommends that full-contact shall be allowed in no more than 2 practices per week. Full-contact shall not be permitted on more than 2 consecutive days. Full-contact time shall be no more than 30 minutes per day and no more than 60 minutes per week. In no cases should a contact practice and a game be allowed on the same day.

Rationale: There is insufficient data to specify with certainty a research-validated “best practices” standard for contact limitations. Several states (Alabama, Arizona, Maryland, and Texas) adopted varying limitations on contact prior to the 2013 football season. Preliminary High School RIO injury

surveillance data suggest these states have seen a statistically significant decrease in concussion rates during practices, with no increase in concussion or other injuries during games.

3. Prior to regular season games, practices may require more full-contact time than practices occurring during the regular season, to allow for teaching fundamentals with sufficient repetition. ASAA strongly recommends that, in these practices, full contact shall be allowed in no more than three practices per week. Full contact shall not be permitted on more than two consecutive days. Full contact time shall be no more than 30 minutes per day and 90 minutes per week.

a. Pre-season heat acclimatization protocols and regulations regarding heat and hydration take precedent and should always be followed.

b. While total full-contact practice days and time limitations may be increased during the pre-season, the emphasis should focus on the proper principles of tackling and blocking during the first several practices, before progressing to “Thud” and “Live Contact.”

Rationale: Regular season practice limitations may need to be revised during the pre-season. This should be done in a specific and systematic manner to allow coaches to spend sufficient time teaching proper tackling and blocking techniques. Emphasis should be placed upon inexperienced players, as they slowly work through tackling and blocking progressions with “Air,” “Bags,” and “Control” using the USA Football definitions of “Levels of Contact.”

4. During pre-season, if twice-daily practices are held only one session per day should include full-contact.

Rationale: The adolescent brain needs sufficient recovery time following full-contact practices. In addition, concussion signs and/or symptoms may not develop for several hours after the initial injury.

5. ASAA has reviewed and recommends no change in the current ASAA policy which sets a maximum of six quarters played during a one week time frame.

For purposes of this policy a week is defined as a NFHS numbered week, and a team must have three full calendar days between contests. For example: if a game is played on Friday, the soonest that the next game can be scheduled is on Tuesday.

After six quarters of play per week, a kicking specialist may participate in up to eight quarters per week, providing that in four quarters the player does no more than kick.

Rationale: High School RIO data consistently show that competition presents the highest risk for concussion. Participation in games at multiple levels of competition during a single week increases risk for head injury and unnecessarily increases head impact exposure. In addition, games played on consecutive days or those scheduled on the same day (C team and Junior Varsity games or Junior Varsity and Varsity games) may not allow the brain an opportunity to adequately recover. Consideration should be given to moderating these situations as much as possible.

6. Consistent with efforts to minimize total exposure to full-contact, head impact exposure, and concussion risk, organizations sponsoring football outside of the traditional fall football season should follow the policies outlined in 2 and 3 above.

The Football Camp Recommendations would be:

All campers can participate in up to 60 individual contact/thud instances per day. Camps will not have contact more than two consecutive days and will not exceed three contact days per week.

Rationale: Football played outside of the traditional fall football season presents an opportunity for learning, physical activity, and skill development. However, athletes are at further risk for head impact exposure and concussion during any full-contact activity. Consideration should be given to significantly limiting the total time of full-contact. Other factors to consider include time elapsed since the previous football season and whether individual athletes have recently been, or are currently, participating in other contact/collision sports (e.g., Ice Hockey, Lacrosse, Soccer and Wrestling). Athletes with a history of previous concussions, especially if accompanied by the factors which increase risk of concussion, should seriously consider refraining from activities characterized by head impact exposure.

7. The NFHS, the NFHS SMAC, the ASAA SMAC and ASAA agree that an Emergency Action Plan for each venue, with clearly defined written and practiced protocols, should be developed and in place at every high school. When possible, an athletic trainer should be present at all practices and games.

Rationale: An effective emergency action plan (EAP) should be in place as a prompt and appropriate response to any emergency situation can save a life. The EAP should be designed and practiced to address all teams (Freshman, Junior Varsity, and Varsity) and all practice and game sites. An athletic trainer is a key component in any strategy to minimize injury risk and optimize safety for all participants.

ASAA will continue to reach out to coaches' association, working together to design and implement coach education programs that appropriately integrate youth, middle school, and high school football programs in every community. USA Football and the NFHS Fundamentals of Coaching courses will be the primary education resources for all coaches. Education for coaches should also include the proper fitting and care of helmets.

Rationale: The game of football continues to evolve and proper coaching technique at each level is fundamental to keeping the game safe and enjoyable. A proper fitting helmet may help decrease, but not eliminate, concussion risk.

ASAA will regularly educate its schools on current state concussion law and policies and recommend that schools to have a written Concussion Management Protocol. Schools should also be encouraged to share this information with coaches, parents, and students annually.

Rationale: Many schools experience frequent turnover of Athletic Directors and coaches. Frequent "refreshers" on state concussion laws and policies as well as sample concussion management protocols should be made available to ensure all schools are current on, and prepared for, safe and effective concussion management.

B. MINIMUM DAYS PRACTICE

Each participant must have a minimum of 10 different days of physical practice before the first day of competition. (Article 7, Section 7)

C. INDIVIDUAL NON-SCHOOL PARTICIPATION

ASAA prohibits students, who are members of a high school team, from competing as a member of a non-school comp or junior hockey or out of state traveling house team beginning with the first day of high school practice until a school team has completed its season. The prohibition on competing on a non-school team will be lifted during Thanksgiving and Christmas vacations dates as they are determined by schools and districts. Although this rule does not restrict practice on a non-school team during the high school season, no student may participate in a high school game on a day in which they have participated in a "comp" practice (see item 12 of supplemental rules regarding penalty).

D. RULES

1. National Federation of High School (NFHS) Hockey rules apply.
2. ASAA Supplemental Rules
 - a. Mercy Rule: Upon reaching a 10 or more goal differential at the end of the second period or thereafter, a running clock will be used. Once begun, the running clock will be stopped only for team, official, or injury timeouts.
 - b. It is the intent of these supplements to the National Federation rules that suspensions will be served beginning with the next scheduled game at the level at which the violation occurred and that no suspended player or coach is permitted to return to play until the suspension has been served.
 - c. School administrators should address repeated violations of poor sportsmanship at the school level. Whenever a player appears before the school administration, the coach is expected to accompany him/her.
 1. Penalties for a team receiving a total of 15 penalties in any one game:
 - First offense during season - \$250 fine
 - Second offense during a season - \$500 fine
 - Third offense during a season - \$1,500 fine

2. A player receiving a second game misconduct in a season will receive a one game suspension to be served at the next scheduled game. A school administrative review will be held.
 3. A player receiving a third game misconduct in a season will receive a two game suspension and will be required to attend a review before the school administration where further disciplinary measures will be determined, before returning to play.
 4. When a player is penalized with a game misconduct, game disqualification or any other suspension in the last contest of the season, the school is advised of the incident and asked to take appropriate disciplinary action.
 5. ASAA provides a reporting form requiring game officials to report any major penalties, game misconduct, game disqualification or suspensions and the circumstances involved. At the end of the game, the game official is required to submit the completed form to ASAA within 24 hours. ASAA then will send the Official's report to the school(s) involved. Schools are required to submit a copy of the School Contest Ejection Form to the ASAA office within 24 hours.
 6. Fighting in interscholastic activities is a serious offense. Since interscholastic activities are an extension of the school, schools should hold their students to the same behavior standards during interscholastic competition as they do at school.
 7. A student who dual-participates in tryouts or practices for a competition team and a school team are in violation of the non-school participation rule and is considered ineligible for the remainder of the season. The school is subject to penalty under Article 12, Section 1, if the school or a member of its coaching staff knowingly permitted the student to play in a high school game after violating the dual participation rule.
3. ASAA Adopted Overtime Policy
- a. All regular season games (non-tournament) and state third and fourth place games shall adhere to NFHS Ice Hockey Rules Book (Rule 9-11)
 - b. All State Tournament games will be played as follows;
 - At the end of regulation, one 8-minute overtime period will be played.
 - If still tied, the ice will be resurfaced and the teams will play two overtime periods of 8 minutes each with a 3-minute break between periods.
 - If still tied, the ice will be resurfaced again and the teams will continue to play in this pattern until a winner is decided.
 - The team scoring the first goal is declared the winner.
 - No shootouts are allowed in any State Tournament game.

E. CONFERENCES

All teams are assigned to conferences. See the Sports Specific Conferences section for the list of schools in each conference. Conferences are responsible for setting their own bylaws and policies. A contact person must be selected to communicate conference information with ASAA. (i.e. State qualifiers, tournament results, final seeds)

NOTE: Juneau-Douglas will provide \$4500 for varsity only and \$5500 for JV and varsity for conference teams traveling to Juneau from Anchorage.

F. MAXIMUM GAMES

A team may play 22 regular season games exclusive of conference or state championships. Additional games may be played under the Endowment Game guidelines.

G. ENDOWMENT GAMES

ASAA encourages each school's team to play Endowment Games during the season above and beyond the 22 game/match limit. Two additional Endowment Games may be played each season. The Endowment Game is a fund-raiser for the Alaska Endowment for Youth Activities. School teams may play Endowment Games at any time during the regular season, beginning with the date of the first contest and extending through the time period between the conference qualifying tournament and the state tournament. Endowment Games do not count in a team's overall season record for seeding purposes. Schools wishing to host Endowment Games must apply in writing to ASAA by submitting the "Endowment Game Application Form" no later than one week prior to the game. Under no circumstances may an Endowment Game be played until this form has been signed by ASAA and returned to the participating schools. ASAA will invoice the host school \$100 for each game.

H. JAMBOREE REGULATIONS

All players must have five (5) separate days of practice prior to the first day of the Jamboree. Time against all teams during one day cannot exceed forty-eight (48) minutes. Time against each team cannot exceed twelve (12) minute. A team may play in only one jamboree each season. A jamboree does not count as a game against the 22-game limit.

I. INDIVIDUAL PARTICIPATION LIMITATION

When playing at the same level, students may participate in 6 periods of play per day or two games and there must be a two (2) hour time lapse between the time the athlete played in the first game and the time they play in the second game. When playing at two different levels (i.e. varsity and jv) players are limited to 6 periods of play per day but are not required to have a time lapse between games.

H. HEALTH CONSIDERATIONS

Firearm instructors and frequent shooters are inherently at increased risk for lead poisoning from lead dust and fumes generated at firing ranges.

Airborne lead dust in firing ranges is generated by:

- a. Erosion of the bullet base by propellant gases
- b. Friction from the lead bullet against the gun barrel
- c. Exploding lead syphnate primers
- d. Lead bullets fragmenting from hitting the bullet trap, walls, floors or range ceiling
- e. Improper range-cleaning methods disturbing steeled lead dust

- f. Poor range ventilation found in both indoor and outdoor ranges

Health Effects

Lead is typically absorbed by breathing lead dust. After shooting, lead can also be ingested when drinking, eating and/or smoking without hand-washing. During shooting, lead dust can settle on hair and clothing, which can then be carried back to cars and homes — potentially to harm children. Lead absorbed by children under six years of age can cause permanent damage.

Lead is a toxin that affects the brain, nervous system, digestive and reproductive systems, kidneys, and the ability to make blood.

To determine lead exposure, a health professional can take a blood sample for analysis. An elevated blood lead level indicates that lead is building up in the body faster than it can be removed.

The State Environmental Public Health Center for Disease Control recommends that rifle shooters have pre- and post- season lead blood levels drawn each year.

Recommendations for firing range shooters who are concerned about lead

- a. Substitute jacketed or ammunition containing lead-free primers and bullets.
- b. Use the shoot range ventilation systems.
- c. Wash hands and face before eating, drinking, and before leaving the range.
- d. Wash and store firing range clothes separately from family clothing.
- e. Ask your physician to order a blood lead test.
- f. Never load bullets or melt lead in an unventilated area inside the home or anywhere children may frequent.

4. STATE SEEDING

- a. Each coach will submit a seeding form (online) for any possible seeded athlete.
- b. A committee appointed by ASAA of knowledgeable tennis individuals will seed each division. Up to four competitors per division may be seeded. The remaining competitors will then be randomly drawn in.
- c. Individual Player Seeding Criteria
The following criteria is considered sequentially. If more than two players are being considered for a given seed, the same process is applied until one player is separated (either selected as seed, or eliminated.) The process returns to step one to assess the remaining players:
 1. In-Season Head-to-Head Results
 - a Win-loss record between players
 - b Percentage of sets won (all matches directly between players considered)
 - c Quality/decisiveness of wins between players, if split.
 2. Common Opponents
In general, apply 1a-1c criteria considering all matches played between players under consideration and the common opponent(s).
 3. Notable Wins and Losses
This criterion considers match results against players other than common opponents included in criterion #2. Notable wins include those over generally-accepted strong players/teams who are not otherwise being considered for seeding in this event. Conversely, notable losses

include those to players/teams who are generally considered significantly weaker than the teams being considered for seeding.

4. Region Tournament Results

Performance in a region tournament does not necessarily provide comparative data, but typically does indicate a minimum level of accomplishment. Preference is limited to those who reach at least the quarter-finals of their region tournament.

5 .Overall Season Win-Loss Record

Due to the difference in number of matches each player may have in a season, a win-loss differential is more important than the raw win-loss record.

6. Previous Year's State Tournament Results

This preference is reserved for players who were champions or runners-up of the previous year's state tournament.

7. Out-of-Season Head-to-Head Results

Out-of-season matches includes matches played before the season started, or outside ASAA sanctioned events (e.g senior tournaments held during the season.) Preference is given to sequence – matches played closer in time to the ASAA season are given greater weight.

d. Doubles Seeding Criteria

1. Doubles resumes with different partners (both players)

2. Singles resumes (both players)

3. Overall win-loss differential in general, all else being equal, preference should be given to teams that have an established record playing together.

5. STATE POLICIES & PROCEDURES DOCUMENT

F. MAXIMUM MATCHES

A maximum of 24 individual weigh-ins, exclusive of forfeits by opponents, exclusive of district or regional tournaments.

G. REGULAR SEASON

1. A forfeit due to late arrival at the tournament site because of weather or transportation problems shall not eliminate a contestant from further competition in a tournament. The athlete will be placed in the consolation bracket.

2. If a team is delayed due to weather or transportation problems and arrives after weigh-ins have occurred, these contestants shall be weighed by themselves upon arrival prior to their first match.
3. Girls may wrestle either girls or boys during the regular season. Girls may only wrestle other girls during conference qualifying tournaments and the state tournament.

H. TAKEDOWN TOURNAMENTS

All wrestlers must have five (5) separate days of practice prior to the day of the tournament. Matches are determined either by a specified number of takedowns or a time limit. A wrestler may participate in only one takedown tournament each season which does not count as a match against the twenty-four (24) weigh-in limit.

I. WRESTLING WEIGHT CERTIFICATION

All wrestlers weight certification must be completed and filed with ASAA prior to their first competition. A wrestler must have the lowest weight class in which they may wrestle determined within 60 calendar days prior to the first team competition of the season. Certification at a lower weight during the season is prohibited. After the first 30 days of the season, a wrestler may not weigh in and wrestle at more than one weight class above the weight of certification without rectifying at a higher weight. Certification should be done before practice begins by a physician, physician assistant, advanced nurse practitioner or doctor of chiropractic.

Each wrestler is required to have at least one-half of their weigh-ins during the season at the minimum weight they will wrestle during the state tournament series. This determination must be in writing and signed by a person authorized to sign the medical exam form and the student's parent. These minimum weights must be an integral part of the eligibility roster. A student starting wrestling after the start of the season must have their minimum weight determined before the first competition.

d. Scratches and Alternates: In the event a qualified contestant is unable to compete due to extenuating circumstances (illness, injury, and ineligibility), it is the responsibility of the school of the indisposed contestant(s) to notify ASAA, by the deadline. Once notified ASAA will invite the next athlete using Trackwrestling and the State Seeding Criteria. After the deadline, if someone is not able to compete, that spot will not be filled. This substitution must be an ASAA eligible contestant.

e. State Brackets Procedures

1. Automatically move up seeds and redraw the bracket if a seeded wrestler does not make weight, etc, or if there are uneven "byes" in the bracket.
2. Automatically award "pin points" for wrestlers wrestling a teammate in the state tournament.

f. Weigh-In Procedures: All wrestlers will weigh-in an authorized uniform with undergarments with a half pound allowance.

5. SEEDING QUALIFICATIONS

The following is the criteria for state qualified wrestlers to be seeded:

- a. Up to 6 wrestlers per weight class will be seeded using the Track Wrestling system. All other qualifiers will be randomly drawn in.
- b. Wrestler must have winning record.
- c. Wrestler must have wrestled at least 8 varsity matches.
- d. All matches must have been entered into Track Wrestling, including dual and tournament matches.
- e. Matches must have been designated as either Varsity or Junior Varsity.

6. SEEDING PROCESS

The Track Wrestling round robin algorithm goes through each wrestler to compare that wrestler to every other seedable wrestler in that weight class. When comparing the wrestlers, it goes through the criteria in order. If one wrestler is better than the other based on the criteria, that wrestler receives a point, otherwise it goes to the next criteria. If all criteria is exhausted, each wrestler receives ½ point. Once every wrestler is compared to every other wrestler, the wrestlers are sorted by the points they accumulated during that process. If two wrestlers are tied on points, it goes to the head to head comparison between those two wrestlers. If more than two are tied based on points, it sorts them by the criteria until they are separated or a two-way tie occurs at which point the head to head comparison is used. If two wrestlers remain tied after a head to head comparison, there will be a coin toss at the ASAA office to break the tie.

Coaches will continue to utilize Track Wrestling to enter regular season and conference results. After the conference tournaments and scratch deadline, ASAA will release the seeds as determined by Track Wrestling's running the ASAA Seeding criteria. ASAA will post those results and the seeding report online by 8:00 PM Tuesday.

Coaches have until 8:00 AM Thursday to notify ASAA of issues with the seeds. A committee composed of knowledgeable wrestling people will then review all the seeds, and those that coaches have questioned. This committee will have the authority to re-seed the tournament; if it is determined information was not entered correctly on Track Wrestling. Those coaches failing to utilize Track Wrestling properly will be issued a warning. If a "warned" coach makes the same mistake in future years, then the school is fined \$250.

7. SEEDING CRITERIA

The following national criteria was adopted by the Board of Directors.

- a. Head to head – strictly head to head record
- b. Record Against Common Opponents – based on winning percentage against an individual common opponent.
- c. Previous State Champion or Runner Up – first or second place from the previous year, state champion first – then runner up.
- d. Overall Varsity Record – overall winning percentage for varsity matches only.
- e. Varsity Record at Weight – minimum of 4 matches at state tournament weight class.
- f. Winning Percentage against seedable wrestlers

8. STATE POLICIES & PROCEDURES DOCUMENT

This detailed document outlining wrestling championship information (i.e. rules, limits, passes, deadlines, match protocol, facility info, coaches meetings, etc), will be available online prior to the start of the championship on the Wrestling Coaches web page. L. “MINIMUM WEIGHT” WEIGH-IN POLICY AND INTERPRETATION

1. Interpretation of State Tournament Weight Class

Each wrestler is required to have at least one-half of his/her weigh-ins during the season at the minimum weight he/she will wrestle during the state tournament series.

2. Interpretation of “Minimum Weight”

After certification, a wrestler may not weigh-in and wrestle at more than one weight class above the weight of certification without recertifying at a higher weight.

NFHS Rule 4, sec. 4, art. 2 “A contestant shall not wrestle more than one weight class above that class for which the actual weight, at the time of weigh-in, qualifies the competitor.

NFHS Rule 4, sec. 5, art. 8 “Any contestant failing to make weight during the weigh-in period shall be ineligible for that weight class. That contestant may weigh-in at a higher weight class.”

Question #1: A wrestler, certified at 125 pounds, has 75% of his/her weigh-ins at the 125 pound weight class during the majority of the season. He/she chooses to go up a weight class and 25% of his/her weigh-ins are at the 130 pound weight class for the remainder of the regular season. What weight class can this wrestler compete in legally at the State Tournament?

Answer #1: The wrestler may wrestle at the 125 weight class and no lower; or at 130 or 135 pound weight class provided he/she abides by NF Rule 4-4-2, which states that a contestant shall not wrestle more than one weight class above the class for which the actual weight, at the time of weigh-in, qualifies. This wrestler could legally wrestle at 125 pounds because of the “one-half rule” or at a higher weight class without regard to the “one-half rule.”

Question #2 : A wrestler, certified at 125 pounds, weighs in and makes weight for the 130 pound weight class. What weight class can this wrestler compete in legally and how does it effect his/her weight certification?

Answer #2: The wrestler may wrestle at the 130 or 135 pound weight class This has no effect on the wrestler’s weight certification.

Question #3: A wrestler, certified at 125 pounds, weighs in and makes weight for the 135 pound weight class. What weight class can this wrestler compete legally and how does it effect his/her weight certification?

Answer #3: The wrestler may wrestle at the 135 or 140 pound weight class. The wrestler would automatically be recertified at 130 pounds (one weight class below that which he/she weighed in.)

3. Interpretation of “one-half of that wrestler’s weigh-ins”

Only actual certified weigh-ins will count toward the one-half rule, not number of matches wrestled.

Example: A wrestler participates in a 2-day tournament on Friday and Saturday. He/she weighs-in both on Friday and on Saturday for a total of two weigh-ins. He/she wrestles a total of four matches during the tournament. This wrestler may count only the two individual weigh-ins toward the “one-half rule.”

Conference tournaments count toward the “one-half rule”.

M. RINGWORM POLICY

Ringworm infection among Alaska high school wrestling teams the past few years has been a continuing problem. To help schools, coaches and officials in dealing with this problem, ASAA has officially adopted the following position based on two primary sources of authority; the National Federation Wrestling Rule Book and the State of Alaska, Department of Health and Social Services, Division of Public Health, Section Epidemiology.

1. NFHS Wrestling Rule Book states in Rule 4-2-3:

“If a participant is suspected of having a skin disease or any other condition that may be communicable, his coach shall provide current written documentation from a physician stating that the suspected disease or condition is not communicable and that the athlete’s participation would not be harmful to his opponent. This document shall be furnished at the weigh-in or upon arrival at the site of the dual meet or tournament. Covering a communicable condition shall not be considered acceptable and does not make the wrestler eligible to participate.”

2. State of Alaska, Department of Health and Social Services, Division of Public Health, Section of Epidemiology (907-269-8000) Recommendations

a. Coaches should examine their wrestlers for the development of any ringworm-like rash. Any identified wrestler should be referred to the school nurse or other health care provider for further evaluation.

b. A qualified trainer or health care provider familiar with the appearance of ringworm should be appointed as medical officer for each competition or tournament. All wrestlers should be examined on the day of competition by the medical officer. The medical officer’s determination is final and not subject to appeal.

c. Wrestlers with ringworm can continue to train with the team in activities that do not have body contact, e.g., weight training, aerobic conditioning.

d. Wrestlers can resume training involving body contact and wrestling competition only when the ringworm lesions have completely healed.

e. Wrestlers with ringworm should continue treatment for a minimum of 4 weeks.

f. Wrestlers should shower thoroughly with soap and water immediately after each practice and tournament.

g. Wrestling mats should be routinely cleaned.

h. Disqualified wrestlers should be provided with an information sheet to take home and to their health care provider. (Presented below).
