NATIONAL HIGH SCHOOL POLICY DEBATE TOPIC Resolved: The United States federal government should substantially increase its funding and/or regulation of elementary and/or secondary education in the United States.

United States students do not rank well compared to their peers from other countries. Achievement gaps also exist between children from different ethnic groups and between affluent and low-income students. Are the schools at fault, or are other issues to blame? What changes in funding, regulations, standards, or support for our schools will bring better results? Do we need more teachers, higher teacher pay, uniform teacher standards, and/or smaller class sizes? Will more money for technology improve teaching? Do we need more flexibility to employ and develop different types of schools? Do we need more flexibility within our public schools? What will bring up graduation rates and help United States students compete internationally? How can we prepare and train the future United States workforce? This resolution will provide a balanced field to discuss these important education issues. The affirmative teams will have the ability to critically examine everything from charter schools to online programs to for-profit schools. There is flexibility to argue for or against K-12 in traditional schools versus more specialized schools. Each area of the country has substantially different standards and rules. This topic allows students to examine those differences and how the federal government can improve education across the board. Negative ground includes arguments from traditional policy options such as federalism, States CP, other agent counterplans, solvency deficits as to whether the affirmative is affecting a large enough scope to solve, spending DAs, politics scenarios, etc. Critical literature is also applicable to the wide variety of presumptions within our government and education systems.

Teamwork provides perfect backdrop
for family working together in Alaska

DENALI PRINCESS WILDERNESS LODGE®

The Shreeve Family knows the importance of teamwork. We're not just related, we are also co-workers at Denali Princess Wilderness Lodge. Knowing how to best support my team, whether we're at home, work, or on the field is a skill I learned while participating in Ketchikan High School's football and basketball programs.

Just as important as supporting my teammates on the field was watching my dad support me from the sidelines. One time he drove all the way from the Lodge to Delta Junction just to watch me play in an away game. ASAA builds valuable skills and camaraderie between players and families alike.

The Shreeves are proud to work for a company who sponsors the Alaska School Activities Association (ASAA), providing today's young Alaskans with 34 sports and activities to enrich their lives and ensure Alaska's future. We can't wait for the next generation to start participating!

Here's the definition of "one for the road."

Over **HALF** of all teen driving deaths involve alcohol! Here are three sobering facts you will never see in a beer commercial:

- 80% of alcohol-related fatalities are caused by beer consumption
- 11,769 impaired drivers **DIED** in 2009, over 700,000 injured.
- **ONE** beer is the equivalent of a shot of 80 proof hard liquor.

Drive as if your life depends on it.

It does!

going up in smoke?

What if someone offered you a highly addictive, slow-death poison that made you look foolish and insecure? Would you even THINK about trying it?

Cigarette smoke is loaded with toxins and hundreds of harmful additives. It contains much higher levels of carbon monoxide than car exhaust! And the price an average pack-a-day smoker pays to feed their addiction to these toxins is about \$300 a month!

If you are addicted to tobacco, it's never too late to quit. Please get help before your future goes up in smoke.

Tobacco is poison. For real.
