

ASAA COVID-19 Events Guidelines

as of 9/16/2020

This document is intended to provide guidance for schools to consider with their stakeholders in writing mitigation plans for hosting events at any risk level.

District mitigation plans should be designed in accordance with state and local restrictions. The Alaska Department of Health and Social Services (DHSS) is available to provide consultation on mitigation plans. To request assistance, please email karol.fink@alaska.gov or call 907-310-8721

Points of Emphasis

- Do not allow any event to take place unless all mitigation protocols can be followed.
- Educate coaches, advisors and parents on the symptoms of COVID-19. Any individual who has even one of the symptoms must stay home and get tested.
- Educate coaches, advisors and parents on the importance of following protocols in order to keep their activity going.
- Advisors and coaches should take the NFHSlearn COVID-19 course and/or view the ASAA COVID-19 Educational Presentation.
- Parents should view the ASAA COVID-19 Educational Presentation for parents and receive the COVID-19 handout.
- It is recommended that people who are at increased risk for severe illness including coaches, students, staff and officials, consult with their health care provider to determine whether participation in activities or events is prudent under the circumstances. Information from the CDC on who are at increased risk can be found at <https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/>.
- There should be a designated individual on site responsible for monitoring and following all screening, cleaning and social distancing protocols.
- Schedule events to minimize the number of people present at a given time.
- Schools must be prepared for periodic closures and the possibility of some athletes or teams having to quarantine for up to two weeks.
- Close contact between any individuals should be limited to the extent possible. Close contact is defined as being within 6 feet of an infected individual for at least 15 minutes. The 15 minutes is cumulative so even a 30 second huddle adds to the risk.
- Require visiting teams to screen their participants prior to arriving at your venue.
- Individuals should screen at home before arriving at an event. STAY HOME IF SYMPTOMATIC.
- Visiting teams are responsible to bring their own towels, hand sanitizer and medical kits.

Facilities

- Cleaning and disinfecting must be conducted in compliance with CDC. The most current guidelines can be found at <https://www.cdc.gov/coronavirus/2019-ncov/community/clean-disinfect/index.html>.

- Frequently touched surfaces and shared objects must be disinfected between events. Schedule a minimum of 20 minutes between the end of one event and the beginning of individuals showing up for another event.
- Facility must have signage of cleaning and COVID protocols and visual indicators (cones, tape, etc.) of proper spacing between individuals.
- Hand sanitizer should be plentiful and available to all participants and spectators. Place them at entrances, bleachers, scoring tables, sidelines/benches and restrooms. Encourage all individuals to use often.
- For indoor events, ensure ventilation systems operate properly and increase circulation of outdoor air. Open windows and doors when feasible.
- Block off areas to keep participants and spectators separated by a minimum of 12 feet.
- Have separate entrance and exit points. Use signage for direction of walking traffic.
- Monitor locker rooms to maintain 6 feet between all individuals.
- Use signage or close every other stall to encourage physical distancing of all individuals in restrooms.

Participants/Advisors/Coaches/Supervisors

- Prior to attending advisors, coaches, supervisors & participants must sign a waiver of liability related to COVID-19.
- Advisors, coaches, supervisors, participants and officials should be screened prior to arriving at an event and again when they arrive. Includes a temperature check, questions and phone number/email. Information should be recorded and stored to help facilitate contact tracing of a confirmed exposure.
- Anyone with a temperature of greater than 100.3 degrees or with positive symptoms reported should not be allowed to participate, should self quarantine, and contact their primary care provider or other health-care professional.
- Maintain physical distancing of 6 feet between all individuals at all times except when actively competing.
- Cloth face coverings by participants should be used when not engaging in vigorous activity. Such as sitting on the bench, in the locker room, on the sidelines, during meetings, etc. Encourage masks during warm-ups or whenever they can be tolerated by the athlete.
- Participants should always be allowed to wear face coverings, if desired.
- As approved by the NFHS, plastic shields designed specifically for football and hockey helmets are allowed. Plastic shields covering the entire face for all other sports will not be allowed due to the risk of unintended injury to the person wearing the shield or others.
- Coaches should wear face coverings (ideally surgical grade) and eye protection. Especially when physical distancing is not possible.
- Participants must come dressed to participate and leave to shower and change.
- Individuals must bring their own water bottle that is labeled and filled. No sharing of water bottles.
- No pre or post event handshakes or high fives.
- Teams should avoid all non-sport related personal contact. I.e. high fives, fist/elbow bumps, group celebrations, huddles, etc.

Spectators

- The size of your facility will determine if you have spectators. You must allow for 6 feet of distancing between all individuals including participants.
- Bleacher seating should be marked and restricted such that there is 6' of physical distancing and every other row is unoccupied.
- Face coverings are required of all spectators.
- Discourage yelling and cheering by allowing artificial noise makers that do not interfere with the official's whistle. No use of airhorns.
- No concessions. To decrease the amount of hand face contact, no food or drink allowed.
- Use digital ticketing as much as possible.
- Post flyers and make PA announcements with COVID information ie. symptoms, protection. [Print Resources](#)

Important Information

- You cannot test yourself out of quarantine.
- Adherence to mitigation plans is crucial
- If there is a positive test, schools will work with public health officials and communicate with students and families.
- Antigen testing guidelines will be included once information is available.

Using these guidelines to develop quality mitigation plans for events you host will allow activities to continue in Alaska high schools. For information on hosting specific events see documents on the ASAA website
