 - 1. As long as no charged team time out was granted during the dead ball.

 - 3. The action which caused the down to end did not also cause the game clock to be stopped.
- c. Because of an inadvertent whistle, unless B or R is in possession at the time of the inadvertent whistle during a running play and chooses to accept the result of the play.
- d. Team A forward fumble out of bounds.

Section 5 CHARGED AND OFFICIAL'S TIME-OUTS --INTERMISSIONS

Art 1....Each team is entitled to two charged team time-outs during each half. Unused first half time-outs cannot be used in the second half. Unused second half time-outs cannot be used in overtime.

Interpretation

Art. 1 is a change from the prior rule set that allowed three charged team time-outs during each half.

Section 6 PLAY CLOCK, BALL READY FOR PLAY AND DELAY

Art 2....The ball is ready for play:

1. When the ball has been placed for a down and the referee marks the ball ready for play after giving the ready-for-play signal as in 3-6-1a(1) with the game officials in position.

Interpretation

The officials will set the discs/ball spotters marking the 1-yard expanded neutral zone. When the discs are set, the referee will then signal the ready-for-play. The offense is responsible for their ball and will often bring the ball into their huddle before placing it at the discs/ball spotters.

Rule 6 Kicking the Ball

Section 1 SCRIMMAGE KICKS

Art 1....Addition: A punt is made by K under restrictions that prohibit either team from advancing beyond their scrimmage lines until the ball is kicked.

Rule 7 Snapping, Handling and Passing the Ball

Section 1 BEFORE THE SNAP

Art 1....The snapper may be over the ball, but the snapper's feet must be behind the neutral zone and no part of the snapper's person, other than a hand(s) on the ball, may be beyond the foremost point of the ball.

Interpretation

Many teams will use a pendulum snap (side snap) with the snapper's shoulders perpendicular to the line of scrimmage. When using this method, both feet must be behind the neutral zone to be legal.

Art 2....The snapper may lift the ball for lateral rotation but may not rotate end-for-end, or change the location or fail to keep the long axis of the ball at right angles to the line of scrimmage.

Art 3....Following the ready-for-play and after touching the ball, the snapper shall not:

- a. Remove both hands from the ball.
- b. Make any movement that simulates the snap.
- c. Fail to clearly pause before the snap.
- d. Following adjustment, lift or move the ball other than in a legal snap.

Interpretation

The officials will set the discs/ball spotters marking the 1-yard expanded neutral zone. The offense is responsible for their ball and will often bring the ball into their huddle before placing it at the discs/ball spotters. Articles 2 & 3 will apply when the snapper places the ball on the ground with a hand(s) in position to proceed with the snap.

Section 3 HANDING THE BALL

Art 1....Any player may hand the ball backward at any time.

Art 2....No player may hand the ball forward except during a scrimmage down before a change of possession, provided both players are behind the neutral zone.

Interpretation

Art. 2 is a change from the prior rule set that allowed a player to hand the ball forward anywhere on the field.

Section 1 POINT VALUES

TABLE 8-1 (Point Values)

Touchdown		6 points

STATE ADOPTIONS (2025)

Mercy Rule

If there is a 19 or more point differential when the Referee announces the 2 Minute Warning for the 4th period, the game shall be over.

If a team scores during the last 2 minutes of the 4th period and that score creates a point differential of 19 or more points, the game shall end at that point

Resolving Tied Games

At the end of regulation when the score is tied:

The officials will conduct one coin toss with the team captains.

The winner of the toss will have the following options:

*Offense

*Defense

*Designating which end of the field the ball will be put in play

The loser of the coin toss will choose from the remaining options.

To start the overtime, the offensive team shall put the ball in play, first and goal, on the defensive team's 10-yard line or succeeding spot if carry-over penalty has been administered anywhere between the hash marks.

Each team shall be permitted one time-out during each overtime period.

The line to gain is always the goal line regardless of whether or not a penalty enforcement places the ball more than 10 yards from the goal line to start a new series.

The first offensive team shall have a series of four downs. That series shall be terminated by any score by the offense. If the defensive team gains possession, the ball becomes dead immediately and the offensive team's series of downs is ended.

If the team on offense scores a touchdown, it is entitled to the opportunity for a try (1 pt or 2 pts) unless the points would not affect the outcome of the game.

After the first team on offense has completed its series of downs, the first team on defense will become the offensive team with the ball in its possession at the same 10-yard line, anywhere between the hash marks. The same end of the field will be used for possessions by both teams during the two sets of downs to ensure equal game conditions and conserve time.

If the score remains tied after each team has been given one series of downs in an overtime period, the procedure shall be repeated with the following overtime periods until a game winner is determined. First options will be alternated with no coin toss.

The loser of the original overtime coin toss will be given first choice of the options.

*Offense

*Defense

No try will be attempted if the winner of the game has been determined.
