

BOYS WRESTLING WEIGHT CERTIFICATION

In accordance with ASAA rules, each wrestler is required to establish a certified minimum weight within sixty (60) calendar days prior to the first team competition and is prohibited from certifying at a lower weight during the season. After the first 30 days of the season, a wrestler may not weigh-in more than one weight class above the certification without recertifying at a higher weight. A student weighing in more than one weight class above his/her minimum weight will be automatically recertified at the higher weight. A student beginning wrestling after the start of the season must have his/her weight determined before his/her first competition.

Guideline for Medical Provider:

- When certifying weight classifications, providers must be aware of the NFHS Rules regarding appropriate minimum weight certification.
1. A minimum of 7% body fat for males.
 2. Initial weight should be with the athlete being appropriately hydrated (urine specific gravity of not more than 1.025).
 3. Controlled weight loss for those athletes with higher than minimum body fat should not exceed 1.5% per week.

Medical Certification

I certify that I have examined the above named student. I have circled the minimum weight class at which this student may wrestle.
